PROFESSIONAL SUMMARY

Computer Science student at VIT Pune with strong foundations in Data Structures & Algorithms and hands-on experience building scalable full-stack applications. Solved 380+ LeetCode problems (150+ Medium), demonstrating strong problem-solving ability. Developed real-world projects including AI-powered RAG systems, full-stack applications, and LLM integrations. Passionate about backend engineering, system design, and writing clean, production-ready code.

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, TypeScript, C#, C

Frontend: React.js, Next.js, HTML, CSS, Tailwind CSS, EJS

Backend: Node.js, Express.js, Flask, REST APIs, Socket.IO

Database: MongoDB, MongoDB Atlas, Qdrant (Vector Database)

AI / ML: LangChain, Retrieval-Augmented Generation (RAG), LLM Applications, Embeddings, Prompt Engineering

Tools & Concepts: Git, GitHub, Postman, VS Code, Unity, OOP, MVC Architecture, System Design

Languages: German (A2), English (Fluent), Hindi(Native), Marathi(Native)

PROJECTS

AI-Powered PDF RAG System | *Next.js · TypeScript · Langchain · QDrant · OpenAI · Node.js*

• https://github.com/itsjayeshk/pdf_RAG

- Built a Retrieval-Augmented Generation app enabling users to upload PDFs and perform context-aware LLM querying.
- Implemented document chunking, embeddings, vector storage, semantic retrieval, and context injection pipelines.
- integrated LangChain with Qdrant Vector Database for efficient similarity search and scalable retrieval.

Smart Pantry & AI Recipe Recommendation System | *Flask · MongoDB · JavaScript · Tailwind CSS*

• <https://github.com/itsjayeshk/smart-pantry>

- Engineered a full-stack pantry management system with an AI-powered recipe recommendation engine using available ingredients.
- Implemented JWT-based authentication and integrated MongoDB Atlas for secure cloud database support.
- Created modular RESTful APIs for pantry tracking, analytics, authentication, and recommendations; deployed on Render.

Animal Akinator – AI Inspired Guessing Game | *Agentic AI · Python · JavaScript · Flask*

• <https://github.com/itsjayeshk/animal-akinator>

- Developed an intelligent animal-guessing game inspired by the Akinator concept using a dynamic question-based decision system.
- Applied problem-solving, logical reasoning, and algorithmic thinking concepts to simulate expert-system behavior.
- Created modular RESTful APIs for pantry tracking, analytics, authentication, and recommendations; deployed on Render.

EXPERIENCE & ACTIVITIES

GSSoC 2026 — Contributor & Ambassador

May 2026 – July 2026

- Selected as contributor and ambassador for a national open-source program focused on collaborative software development.
- Collaborating with maintainers using Git, GitHub, and modern development workflows on real-world projects.

DSA Volunteer — Gedit Coding Club, VIT Pune

Nov 2025 – Present

- Mentored peers in Data Structures & Algorithms, conducting sessions and doubt-clearing workshops for junior students.
- Contributed to club initiatives promoting competitive programming culture within the institute.

XR Development Coordinator — SIG RealitySpectra, VIT Pune

Oct 2025 – Present

- Leading XR (Augmented & Mixed Reality) development projects using C# and Unity within the special interest group.
- Coordinating team efforts on AR application development and collaborating on immersive technology experiments.

Game Developer — Xtended Reality & GameDev Forum (XRGF), VIT Pune

Oct 2025 – Present

- Developing games and interactive experiences using Unity and C# as part of a college game development community.
- Collaborating with designers and developers to ship playable game builds and prototypes.

- Applied computer vision and aerodynamics knowledge to support drone/UAV development and performance analysis.
- Contributed to aerodynamic testing and research, bridging software skills with real-world aerospace applications.

EDUCATION

Vishwakarma Institute of Technology (VIT), Pune <i>B.Tech in Computer Science and Engineering - 8.65cgpa</i>	2025 – 2029
Fergusson College, Pune <i>Higher Secondary Certificate (HSC) – 82%</i>	2023 – 2025
City International School, Pune <i>95.2%</i>	2023

ADDITIONAL INFORMATION

- Designed and built RC aircraft, gaining hands-on knowledge of aerodynamics — lift, drag, stability, airfoils, and flight control.
- Strong interest in aviation and backend engineering; continuously improving system design skills through self-study.
